LinkedIn: alantriacca

WEB DEVELOPMENT WORK

AllredFireTribe.com redesign – *allredfiretribe.herokuapp.com*

– I recreated the AllredFireTribe.com website. I added token authentication and other functionality, enhanced responsiveness, expanded product offerings, etc. Please click here to load it and explore.

Built with: JavaScript, React, Node.js, Axios, MongoDB, Express, Mongoose, HTML, CSS

devQuotes API project – *atriacca-devquotes.surge.sh*

– I created this app for a React API project at V School's Full Stack JavaScript Development Bootcamp. I chose the Quotes on Design API for this project. The quotes revolve around development, coding, design, etc. The app allows the user to display random or filtered quotations then save for future viewing.

Built with: JavaScript, React, Node.js, HTML, CSS

Please see my portfolio for an updated list of projects – *atriaccaportfolio.surge.sh*

PROFESSIONAL EXPERIENCE

V School, Salt Lake City, UT — *Teaching Assistant, Full (MERN) Stack JavaScript Development Bootcamp*

May 2018 - Present

– Teaching Assistant at V School's Full (MERN) Stack JS program, which focuses on HTML, CSS, JavaScript, Node.JS, React, Express, and MongoDB.

Investools by TD Ameritrade, Draper, UT — *Client Services Specialist*

February 2007 - April 2018

– Area owner of the Investools KnowledgeBase. This includes creating and editing internal and client facing self–help/DIY articles using Jive Software, Snagit, MS Office, etc.

– Provide support via cross functional teams including product drawdown and Bugs teams as well as reporting and managing technical development issues.

– Primary liaison to the Dev Team and help manage trouble tickets in Jira and Confluence systems.

Photronics, Inc., Brookfield, CT and Milpitas, CA — *Applications Engineer*

June 1995 - January 2006

– Manage projects including qualification processes for customers by being the technical liaison and coordinating internal resources for scheduling, manufacturing and inspection.
